

# RIDE, GAME & ACTIVITY PROSPECTUS 2025

**Zero Gravity**  
Australia's Largest Techno Jump

## Introduction

With just one phone call you have all the requirements for your Party or School Fete. Instead of having to source all your equipment from multiple suppliers to obtain the best price, we do it all for you. Less stress plus time and money saved.

We do the delivery and pick up as well providing a staff member to oversee the loading and unloading and assist you with the set up. All you need to provide is a group to manage the set up and dismantling.

The normal cost of hiring equipment would be expensive without transport to & from the event or a staff member to oversee the setup.

If, however, you put together a list of equipment that exceeds \$3,750 you'll get free delivery & pick up with an assisting ASA staff member.

Our Equipment Selection Includes:

- Electrical Leads & 3 Phase Power Boxes,
- Chairs & Trestle Tables,
- Coloured Flags,
- Poles & Pegs,
- Children's Bouncy Castles,
- Fairground Games,
- Thrill & Family Rides,
- Children's Activities,
- Coffee, Fairy Floss & Popcorn Machines,
- BBQs, Bain-maries, Slushie Machines
- Umbrellas, Tents & Marquees, and
- Flood Lighting.

No school fete would be complete without traditional "carnival" fare. We can help you with anything from fairy floss, potato vans, coffee carts through to the provision of a quality food canteen.

If you prefer to arrange your own catering, we can also provide you with the equipment needed such as BBQs, deep fryers, bay marie, donut maker, spit roast machines and much, much more.

# About Us

**ASA is owned** and operated by **Russell and Amanda Watkins**. Russell is a 4th generation amusement provider following proudly in his grandfathers footsteps and Amanda & Russell are the co-creators and driving force behind **Adelaide's premier Christmas event Santa's Wonderland!**

Under their stewardship the company has grown into **a strong & credible operation** with many events & festivals to their credit.

The name **Amusement Services Australia (ASA)** was selected to represent the companies expanding nature, professionalism and corporate outlook as it continues to grow, develop and deliver new and exciting amusements to the Australian community.

**Russell & Amanda's ultimate goal** is to expand their brand to the corporate market and to move forward to a permanent amusement park model where they are recognized as a professional, reliable and reputable leader in their industry!

## Mission Statement

**Our Mission is to deliver** the latest attractions & innovative concepts that inspire our peers and amaze our patrons in a safe, happy, fun filled environment for both our staff and guests.

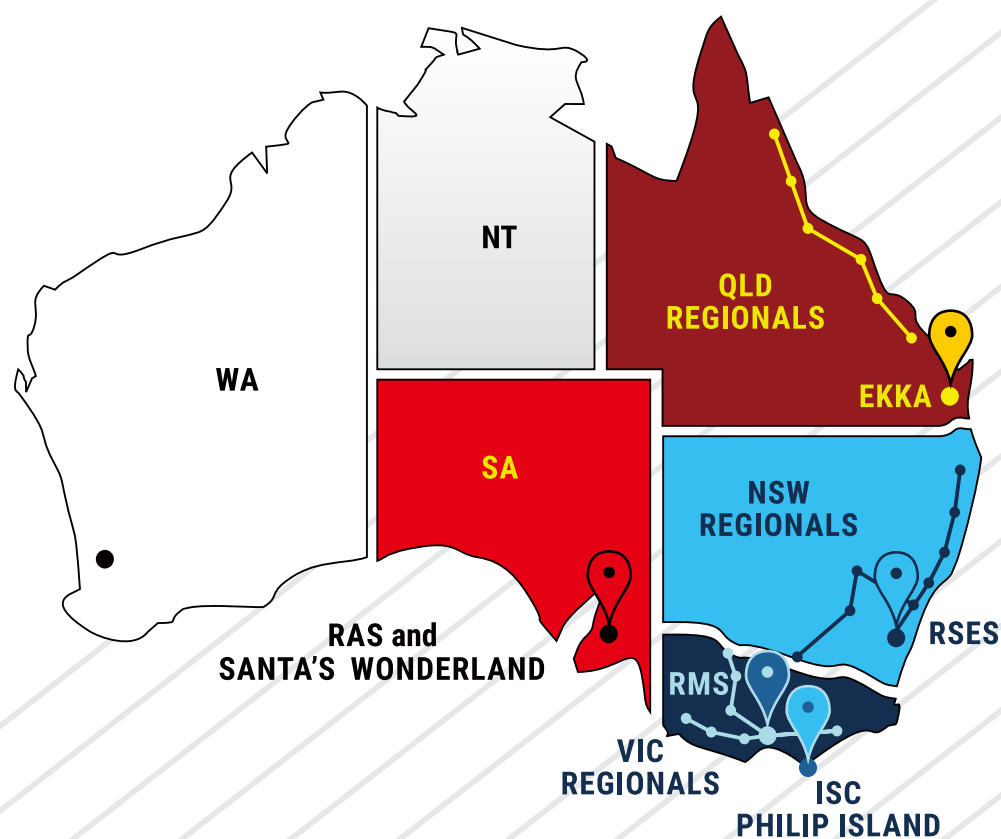

## Affiliations

## Where we'll be in 2025

Apart from each states **capital shows** and regional events, Amusement Services Australia has created & operates **Santa's Wonderland Adelaide** & the Island Summer Carnival, Cowes, Philip Island, Victoria.

## Big "Event" Specialists

Amusement Services Australia and Amanda Watkins are **BIG EVENT** specialists!

Christmas starts early each December every year when **Santa's Wonderland** comes alive at the Adelaide Showground with an extravagant range of amazing amusement rides, spectacular Christmas Stage Shows, Ice Skating Rink, exhilarating Ice Slide & our Christmas Activity trail.

With close to **50,000 customers** through the doors each year Santa's Wonderland offers a Whole World of Christmas Magic!

Laugh, sing, dance and selfie your way through this truly magical walk through wonderland with your family and friends!

# Spaceroller

**Also known as the Top Scan**, the Spaceroller is an amusement ride made by Mondial based in the Netherlands. It comprises 6 free-rotating gondolas each with 5 seats & the standard Mondial triple-lock harnesses which includes a redundancy safety belt!

**As the ride begins**, the main support rises upwards with the gondola arms spinning anti-clockwise and the gondolas themselves rotating freely around the arm axis, tilting upside-down. Talk about being thrown every which way but loose!

## Technical Specifications

## Technical Specifications

<b>Year Of Manufacture:</b>	2000

<b>Safety:</b>	Tripple Lock Safety Bar
<b>Setup/Pulldown Times:</b>	8 Hours

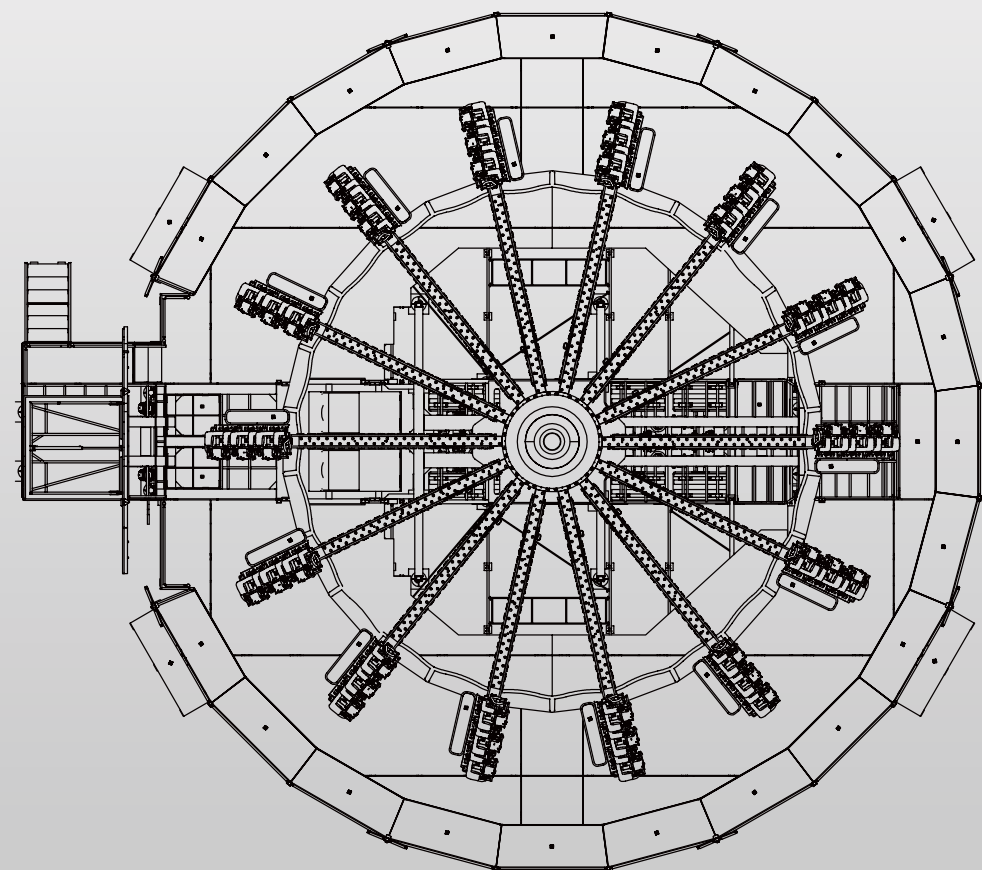

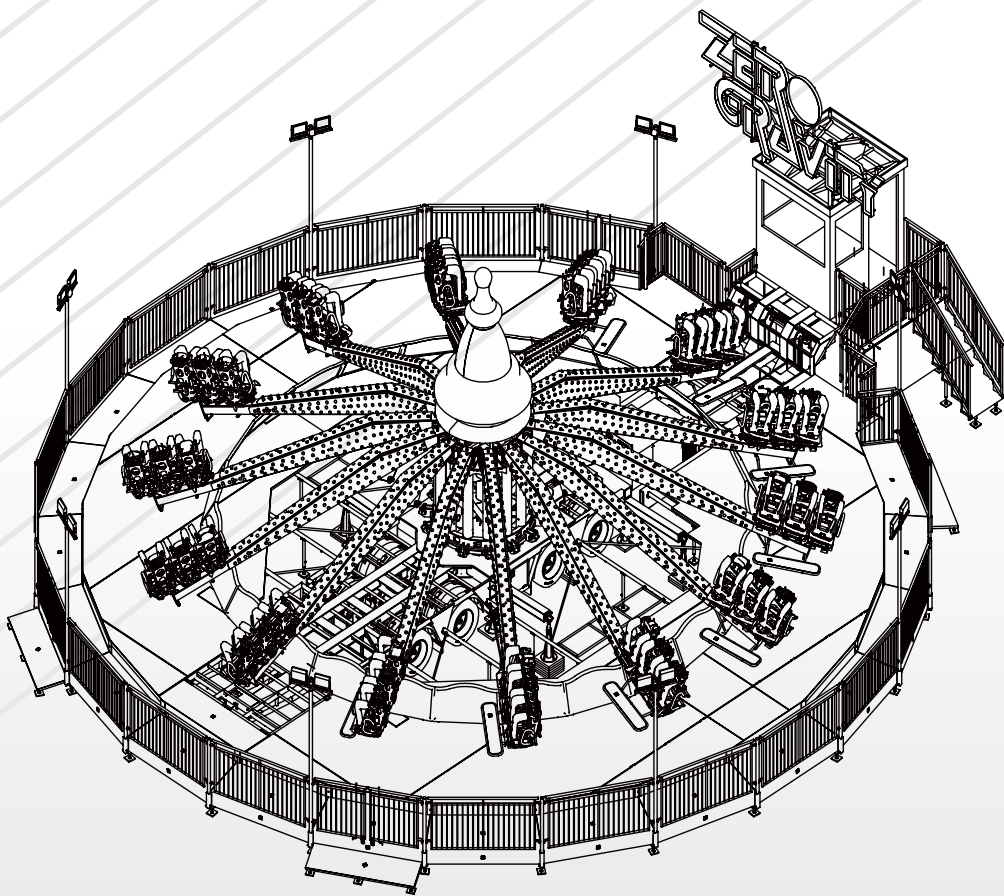

# Zero Gravity

**Zero Gravity comprises** a central hub that rotates and 14 arms that can move up and down through high-performance pneumatic cylinders bigger than standard.

These arms are operated safely by a combination of pneumatic and electronic systems.

**To ensure safety,** a safety PLC and sensors coordinate the entire set of ride arm movements and jumps, allowing the ride to perform various figure choreographs, which makes it an exciting experience for the rider and an attractive sight for the viewing customer.

<b>Setup/Pulldown Times:</b>	8 Hours

# Ali Baba

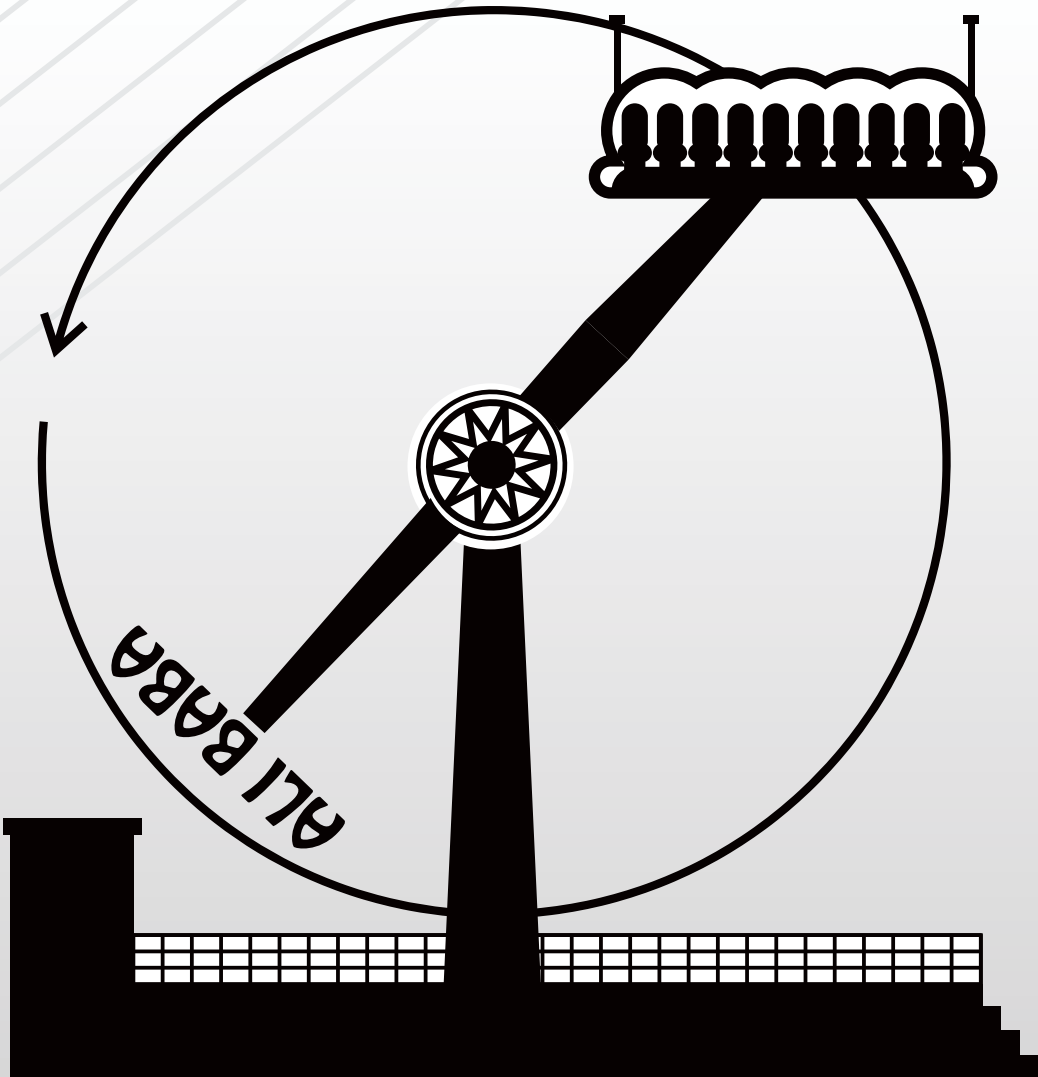

Ali Baba is another swing arm ride that gives you that sickly feeling of falling rapidly (like in a dream) without spinning you every which way but loose.

You stay seated and upright through the whole experience.

It is one of Australia's favourite family rides catering for all ages.

It is highly visible and stands out above the rest at 24m in the air. It is an exciting and robust ride which has proven popular with the public. The Ali Baba has a signature circular motion.

Min Height + Age:	120cm + 12 to Adult
Safety:	Double Lock Harness
Setup/Pulldown Times:	4 Hours

# Ice Skating Rink

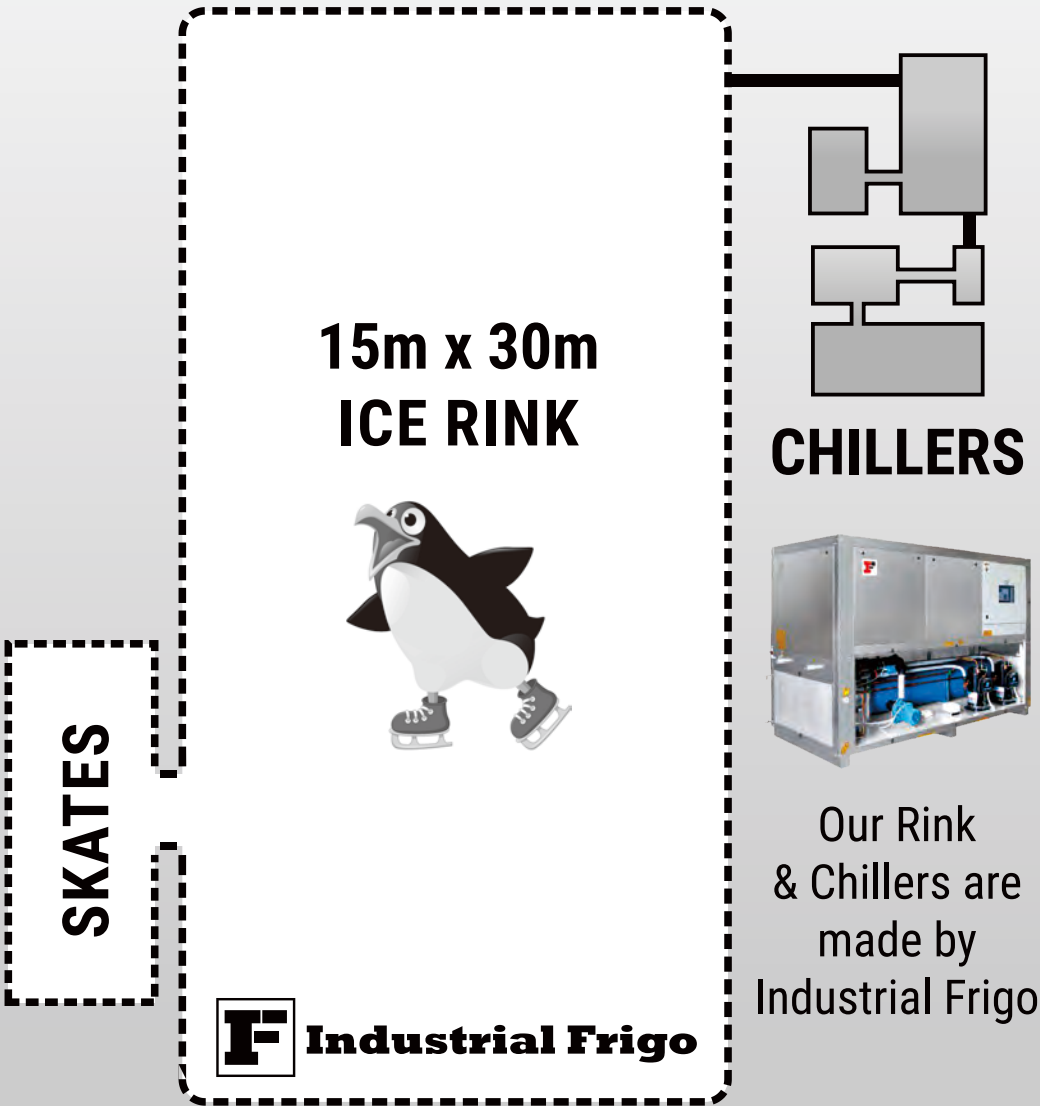

Our Ice Rink is 14m in width and 25m in length. The perfect size to fit into compact indoor spaces. The rink is powered by our low noise, double gas circuit modular chillers whose specifications are listed further on in this proposal.

ASA also employs the latest technology in Ice Rink setup from floor insulation & protection to our polycarbonate, interlocking board/rail system with GRUVLOCK fittings.

Our rinks are built with LDPE, low density polyethylene, a material that combines flexibility & resistance designed & manufactured by Industrial Frigo Ice in accord to regulation DIRECTIVE97 PED / 23 / EC Module A1.

ASA uses a special type of external waterproof insulation with an elastomeric compound (BPE) and -25 C rating that allows us to install our rinks on top of any underlying material. The insulation is placed under the rink isolating the cold generated by the coils. This is great for shopping malls & convention centres protecting all kinds of flooring.

Transport:	Small Semi Trailer

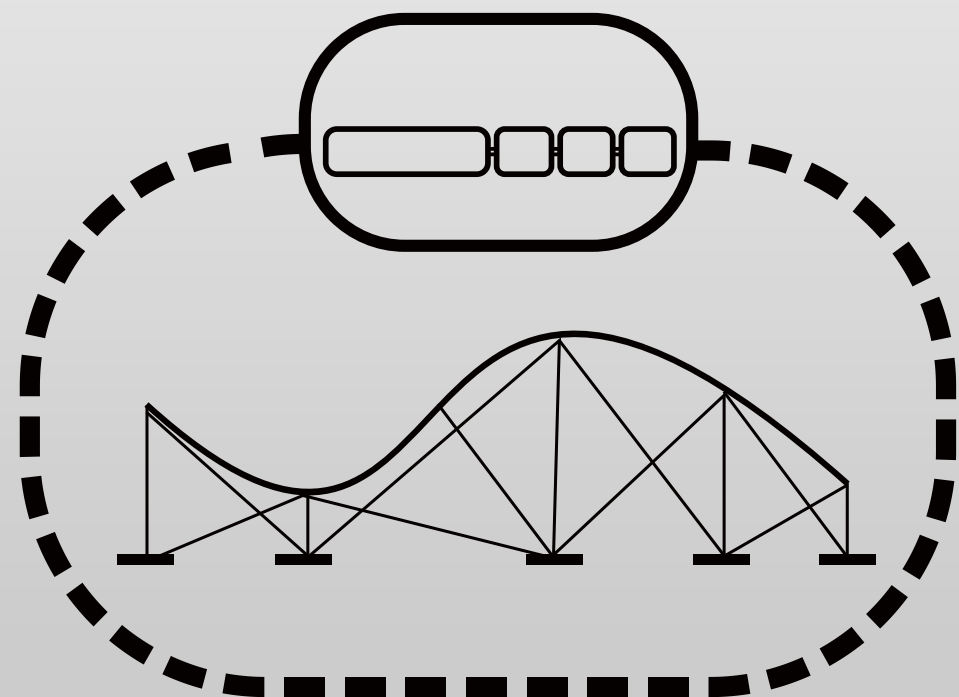

# Dragon Wagon

The **ASA Dragon Wagon** is our premier children's ride, the ride most children instinctively gravitate to! An unconventional ride in the sense that it's speed and power are deceptively hidden until in action where it never fails to deliver squeals of delight and laughter to every rider, parents included!

The **Dragon Wagon** is recognized by it's distinctive dragon shape and vivid orange and green paintwork that while appearing fun and friendly also solicits awe & excitement from the young ones.

and although the coaster is quite small, set on an oval track having a single rise and fall which takes about two minutes to complete with 5 five laps (on average) to run, it is both exhilarating and safe!

## Technical Specifications

Min Height + Age:	90cm + 6 to Adult
Transport:	1x 13.6m Semi Trailer

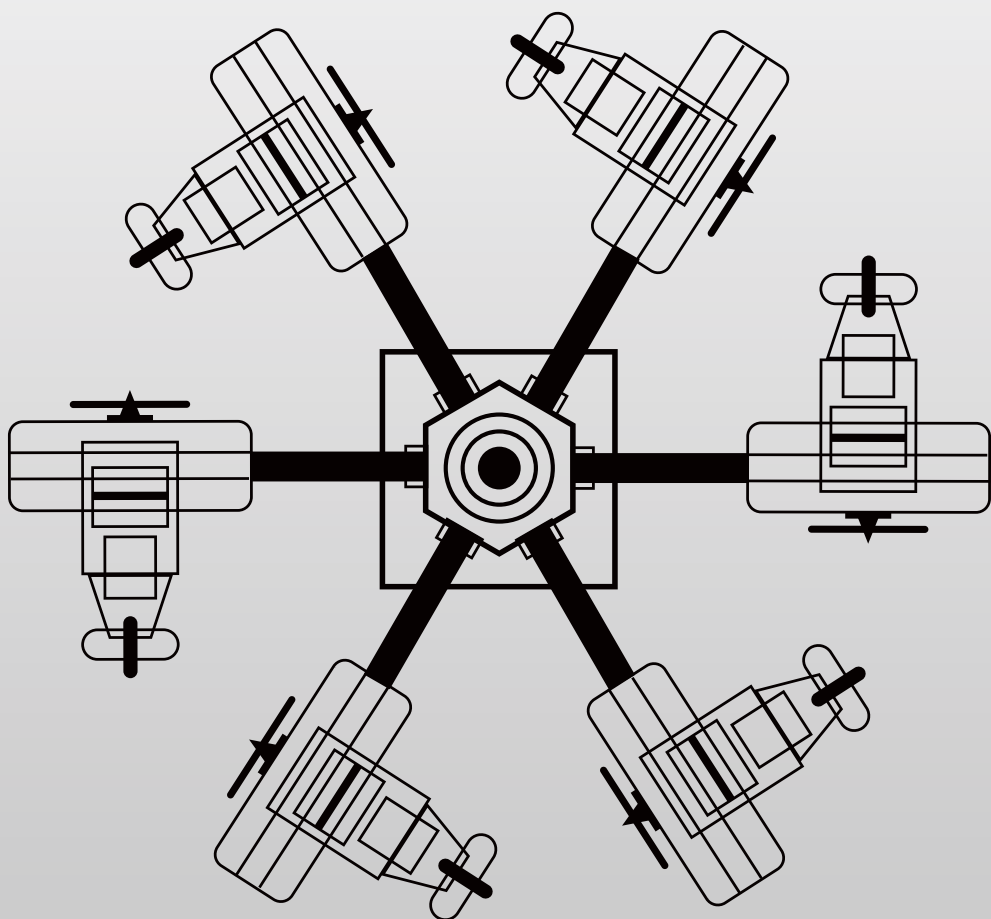

# Super Planes

**ASA Super Planes** is an amusement ride intended for small children. It is usually presented as part of our **Kiddies Kingdom concept** however the ride can integrate with other attractions or stand alone amongst other children's rides.

It has been fully **refurbished and painted** in August 2019 with a fantastic retro artwork! The ride is always popular with the children because they will have the ability to move the plane up or down as it rotates in a clockwise direction

Each **vehicle loads 2 passengers** and elevates about 3 meters off the ground!

\* 1 adult + 2 children or 3 children per plane

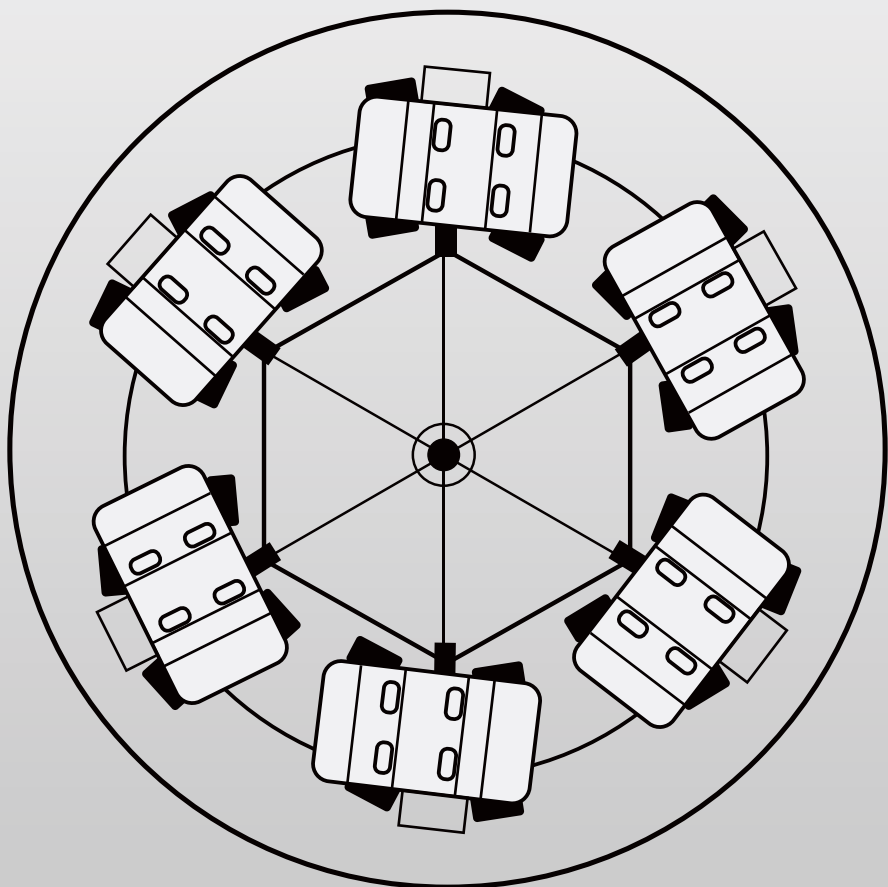

# Super Trucks

Children will get double the ride pleasure with our Super Trucks because each truck seat has it's very own steering wheel! Six magnificent 4x4 Super Trucks rotate around a small carousel where the little ones will experience the joy and excitement of being in control of their very own truck - just like the big boys!

Our ride was fully refurbished in 2018 for the 3rd Santa's Wonderland event held at the Adelaide showground.

and with nearly 50,000 patrons through the doors of the Goyder pavilion, **ASA's Super Trucks quickly proved** a family favourite. Their bright and colourful artwork along with their chrome finishing and flashing lights securing the vote!

# Motorbikes

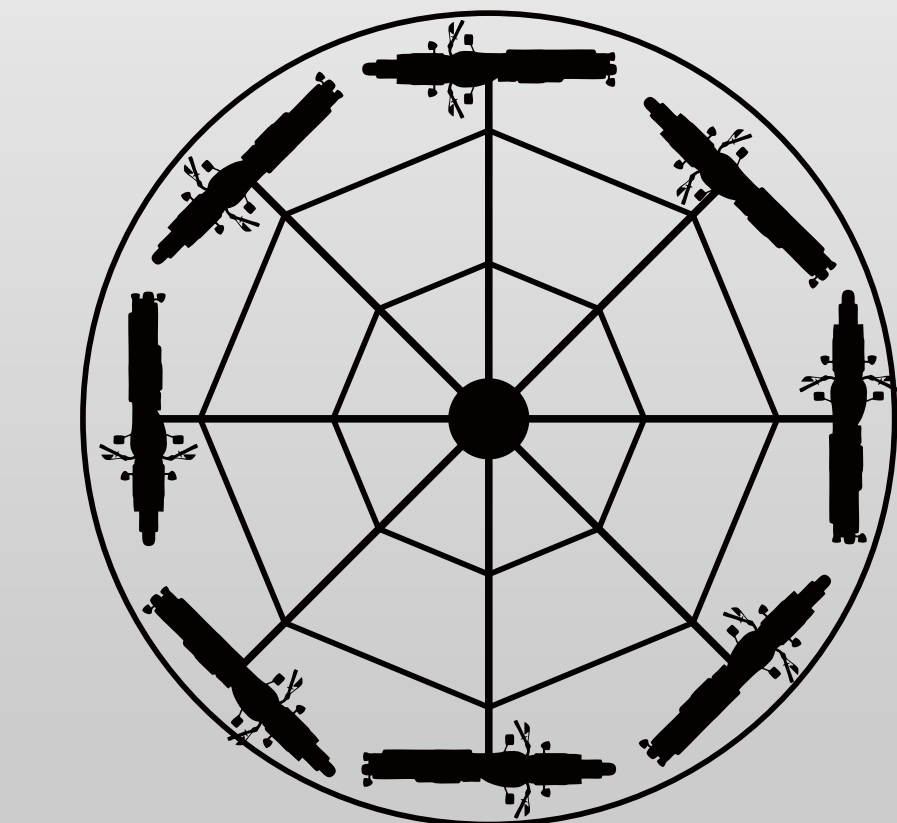

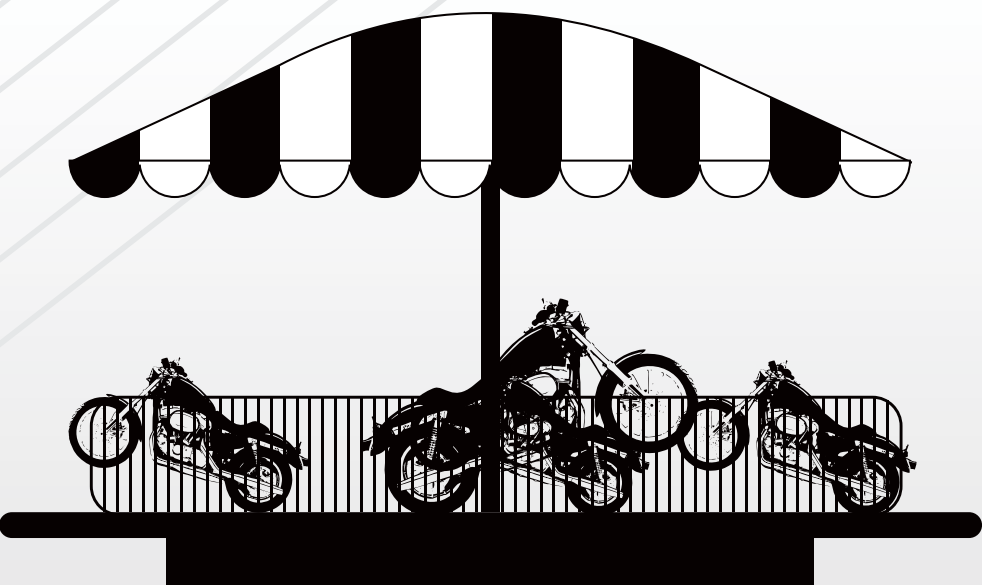

ASA's **Hampton Motorcycle Ride** is our newest Children's acquisition and one of our most popular attractions featuring a variety of multi-colored, metal flake life size motorcycles capable of seating two passengers each.

Each motorcycle is equipped with a horn and flashing lights and as the ride rotates, the motorcycles go over a jump and also "pop a wheelie".

.... and those children riding pillion have their own handle bars, foot pedals and horn!

Our ride is the trailer mounted version which means that we can drive onto site and setup quickly and pull down just as fast in our bump in bump out periods.

# Santa Fe Train

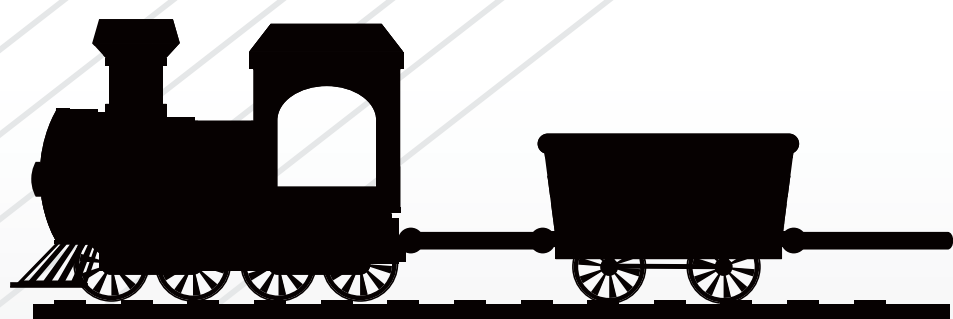

The Santa Fe Train is a beautifully crafted small children’s ride that will amaze and delight all that ride her.

Designed and developed in accordance with the GB8408-2008 “safety of amusement and recreational facilities” and GB/T18165-2008 “small train type amusement machine general technical conditions.

The train has been designed for young children, 2 1/2 to 4 years old. It is safe, slow but authentic.

Older children can ride the Santa Fe train but they will have more fun riding our Super Planes or Dragon Wagon which are faster and more exciting.

# Dodgem Cars x2

The Dodgem Cars has always been an Australian favourite!

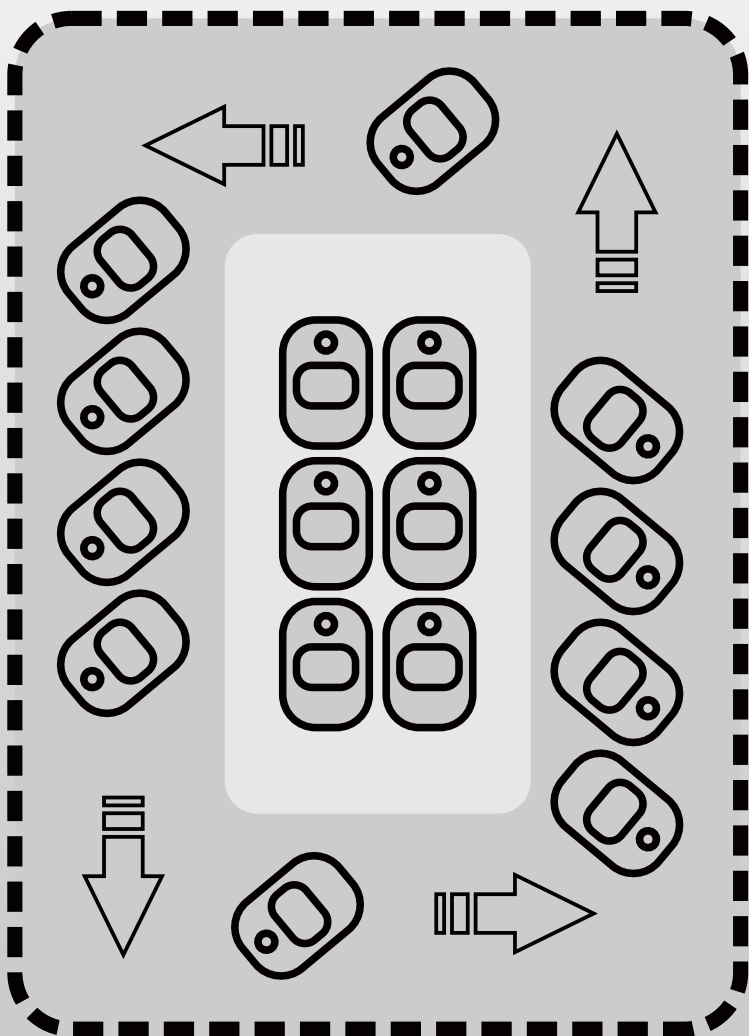

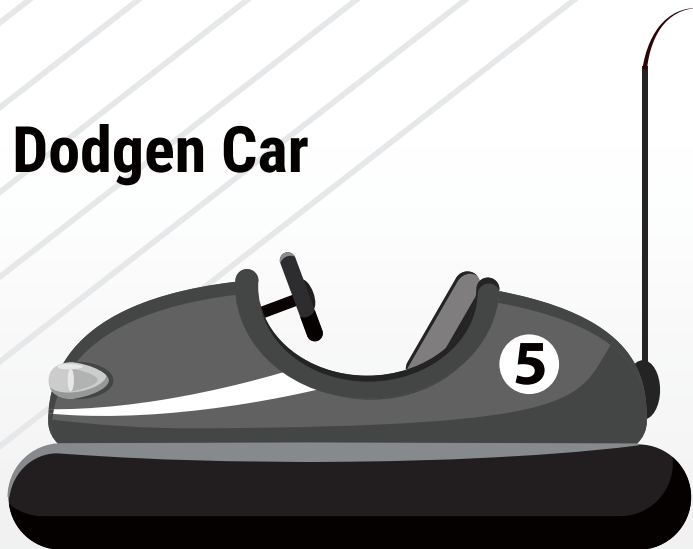

These electrically powered vehicles favoured by families with older children and provide all the fun and thrills of a smash up derby!

Off course we don't allow head on bumping and all riders must drive in the same direction but jousting for position on the track will always be the lure of this ride!

ASA's Dodgem Cars are safe, fun and an activity that parents and children can participate in together!

# Tea Cups

ASA's Teacups is an amusement ride characterised by tea cup shaped spinning vehicles atop a turntable-like floor.

Based on the ride seen at major amusement parks the colorful cups spin around on their own axis as the whole ride turns.

This attraction has 6 cups each of which seats up to 4 children or 1 adult and 2 children. Parents can ride with the children.

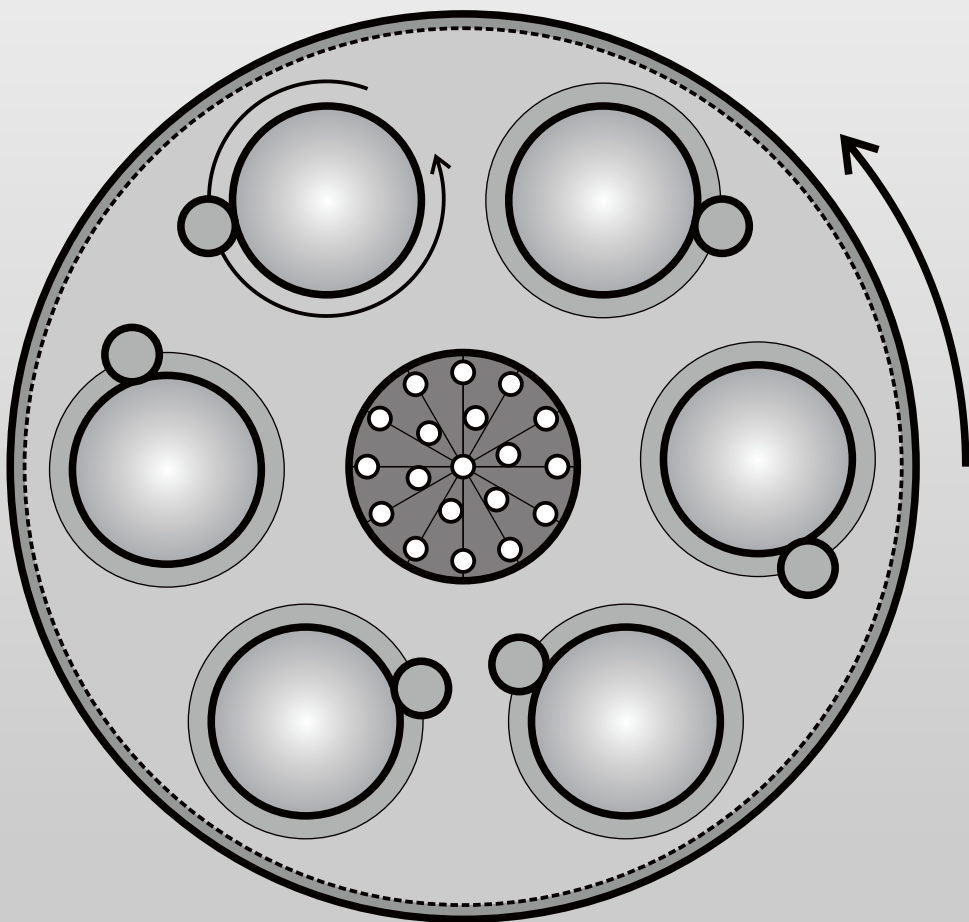

Teacups can be enjoyed by the whole family, are safe, easy to set up and pull down and the colourful combination of lights, cups and swirling directions sure to please.

## Technical Specifications

<b>Transport:</b>	1x Double Axel Trailer

# Waverider

As the ride starts, the benches begin to move up and down in a smooth, rhythmic motion.

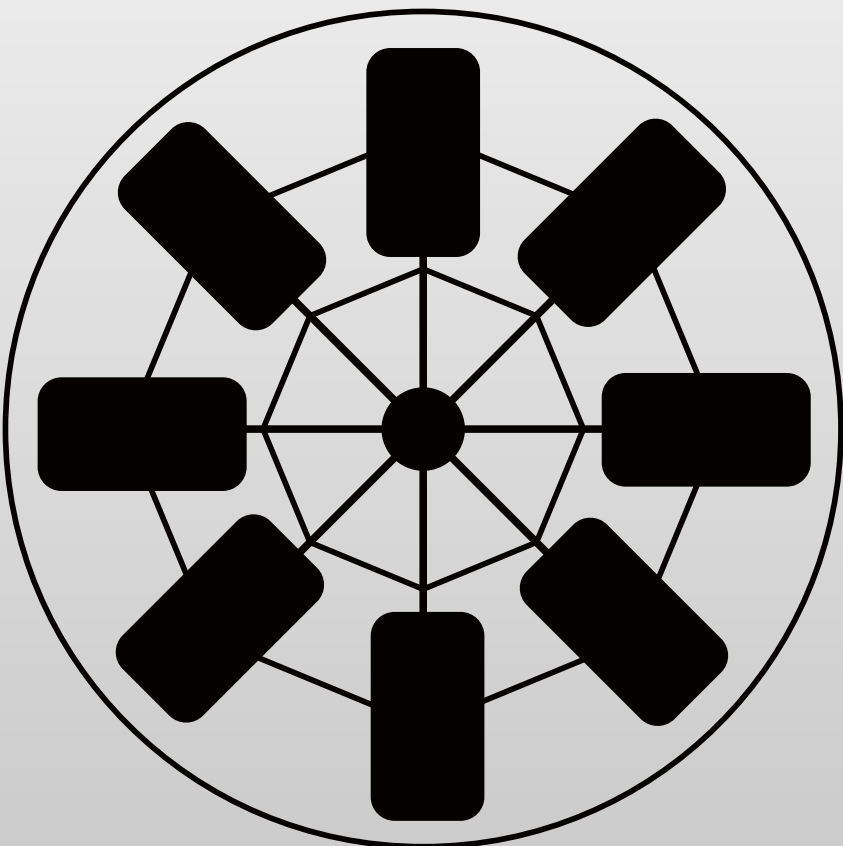

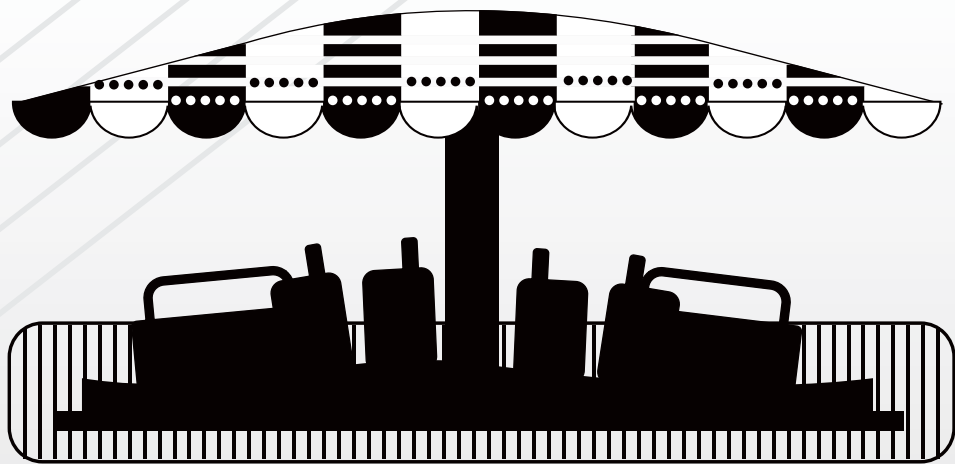

As the ride gains speed, the wave-like motion becomes a little more intense as riders crest the peak of each wave.

The ride continues in this fashion for several minutes, providing a thrilling experience for children without being too intense or scary.

**Brightly colored and decorated with lights and other special effects enhance the experience.**

This ride suitable for children of all ages, although it is particularly popular with younger children who enjoy the gentle, wave-like motion of the ride.

# Taxi Jet

The Taxi Jets offer fantastic presentation and appeal.

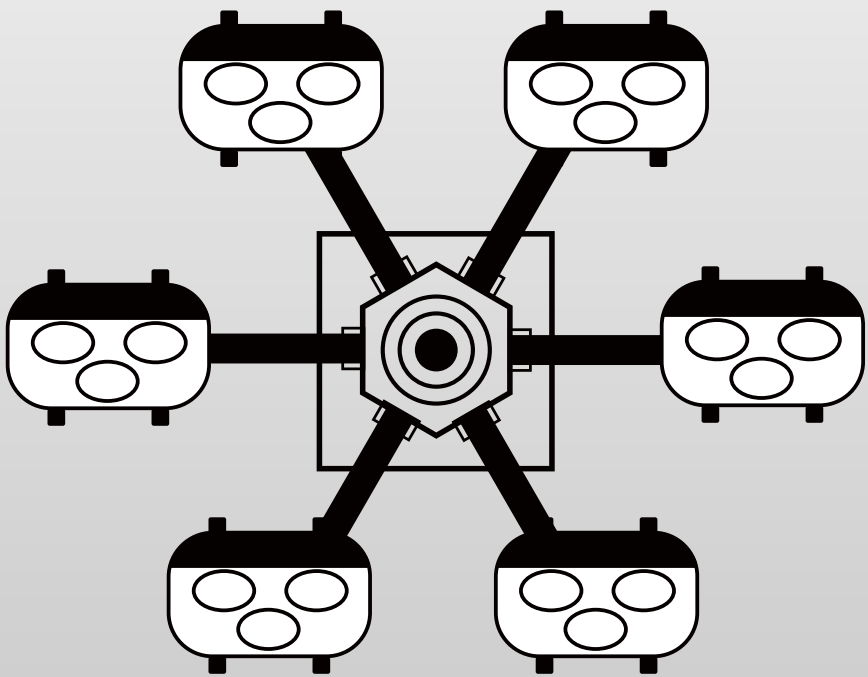

Great action as 6 themed cars rotate with up and down motion playing a host of musical tunes that the kids absolutely love.

Each car has 4 steering wheels as the kids are in their element driving colourful cars just like their parents!

This high capacity children's ride is easily transported and comes with secure powder-coated fencing and pennant flags adding to the presentation and appeal of your event.

The ASA Taxi Jet is an amazing addition to our Children's ride portfolio!

# Waterballs

Our Waterballs are constructed with thermoplastic polyurethane (PVC) 0.7mm thick and 2m in diameter. They store flat, weigh 15kg each and can be inflated in under a minute with our air pumps.

They are 2m in diameter and have a zippered entrance to allow for easy entry and exit. The water ball is similar to the zorb, but it has only one layer and is designed for water travel rather than down-hill rolling. Our models have hand grips on the inside with our inflatable pool 8m by 5m in size filled to a maximum depth of 50cm.

We have multiple staff in attendance that are fully trained in CPR, vigilant and equipped to handle any or all emergencies that might arise. The pool is fenced off from the crowd on all sides in accordance to Australian safety requirements.

# Bungy Trampolines

ASA's Bungy Trampolines are a great way for children to experience the thrills of finding big air in a safe and controlled environment.

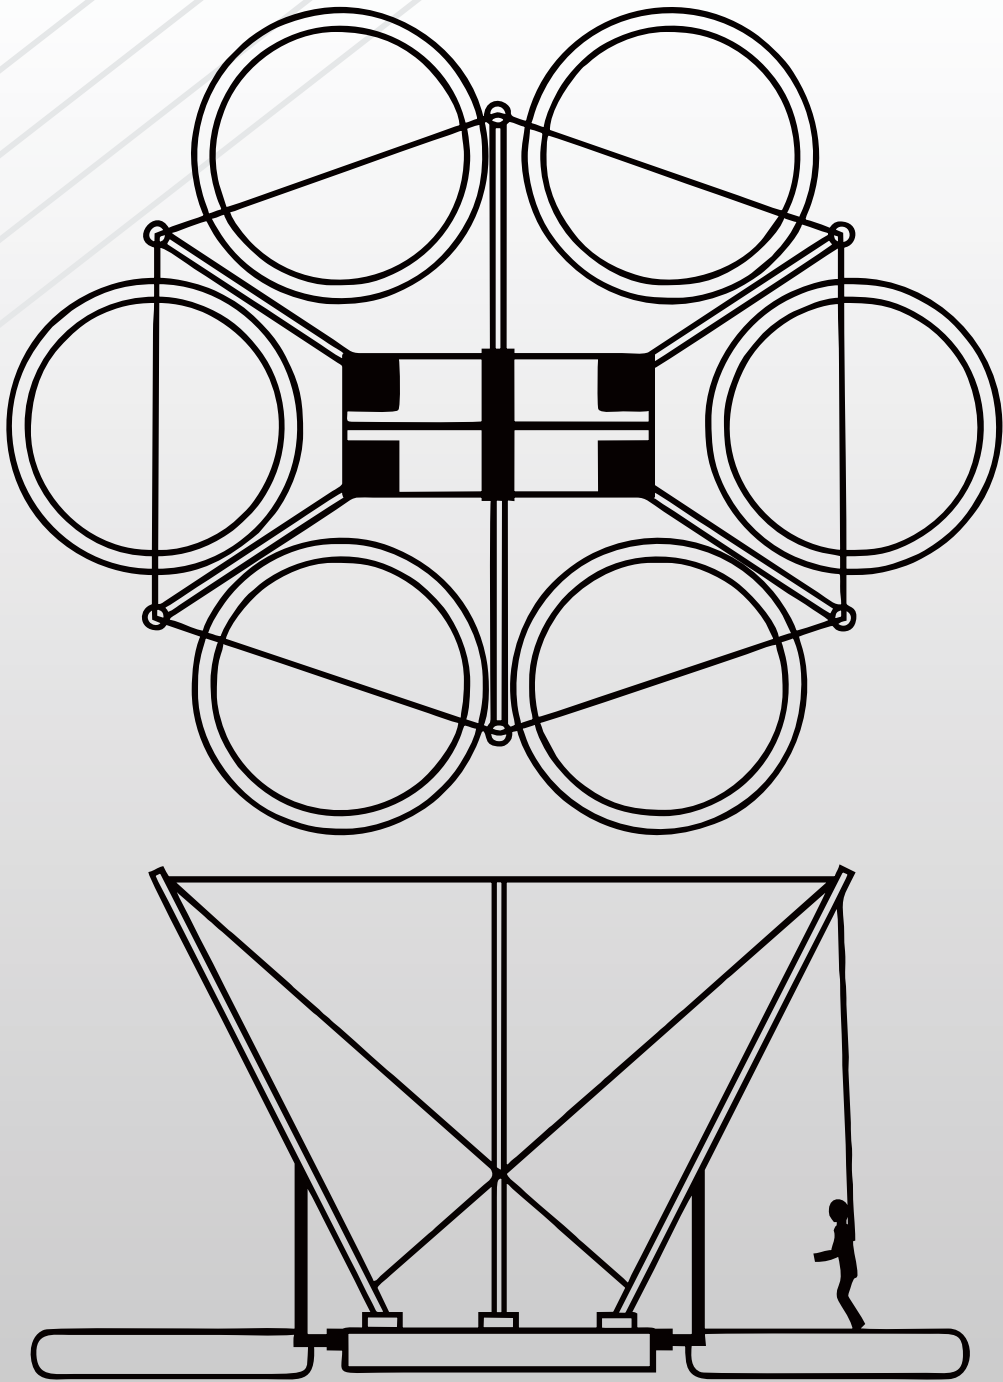

They are very easy to set up and offer hours of fun and exercise to all ages.

Bungy Trampolines are also a great way to pump up your event and your guests will love them!

Bungy Trampolines add an exciting visual element to any occasion while providing a fun, active and healthy activity that will ensure your guests will be talking about your event for a long time!

This is a favoured attraction for school fete's and smaller carnivals we organise.

# Sea Circus Giant Slide

ASA's Giant Inflatable Slide is the ultimate in bouncy castle thrills and spills.

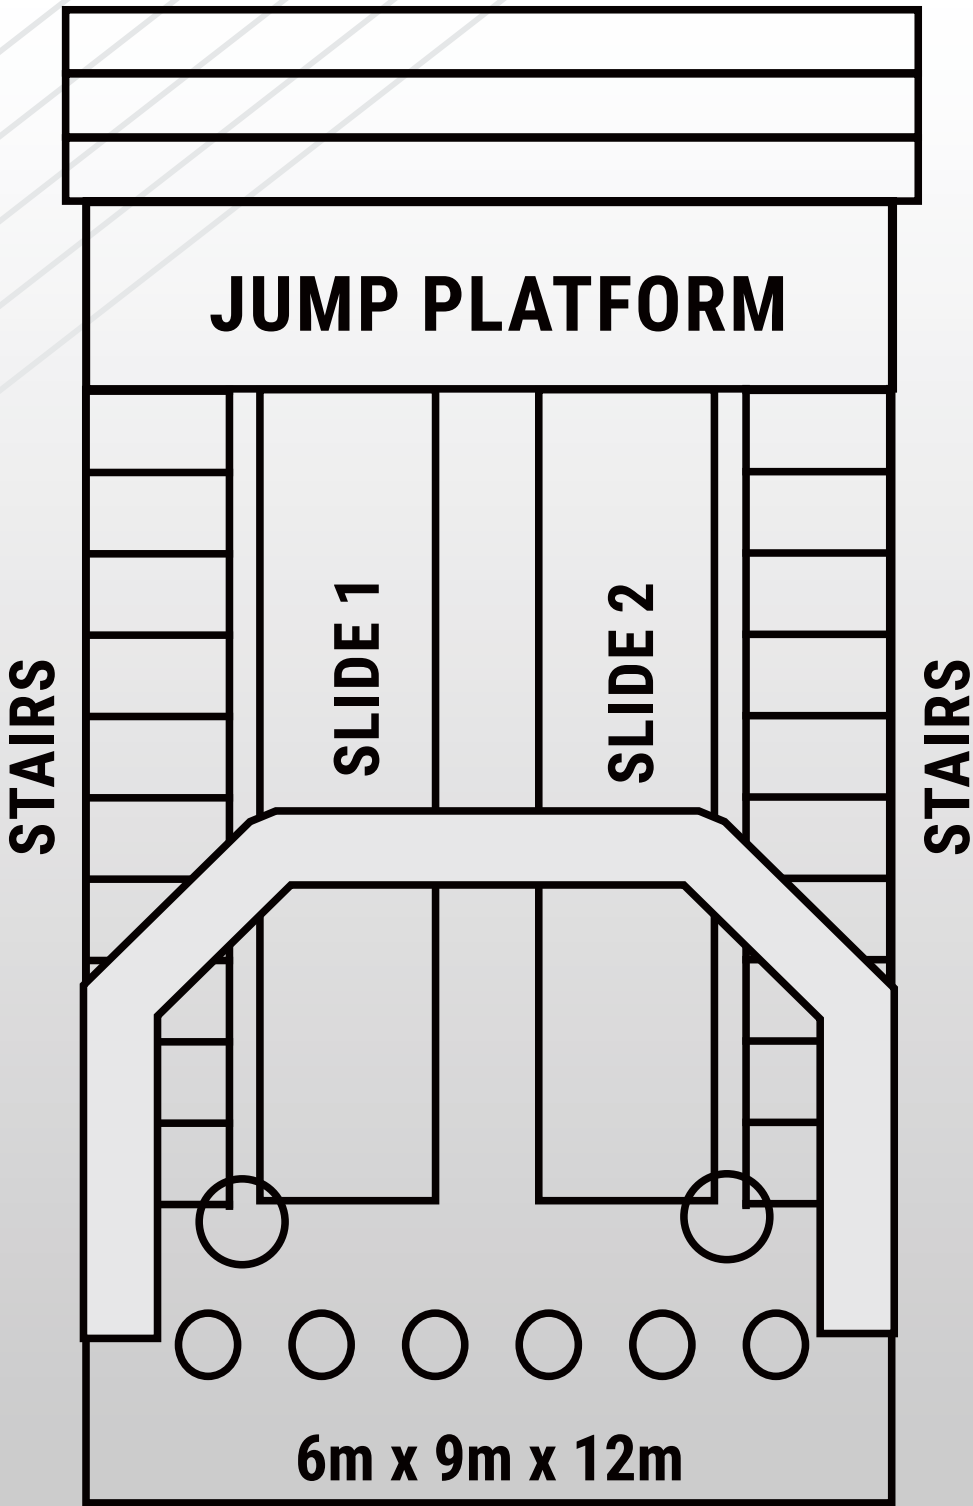

It reaches up a massive 12m to literally touch the sky above haha ;)

Well maybe not that high but high enough to be the ultimate inflatable slide ride.

This bouncy castle is a sure fire winner at any event and will leave your children exhausted as they climb and slide time and time again.

It;s also very safe, fun and exhilarating for the younger ones who need a soft landing to protect their youthful urges to climb high!

# Shark Jumping Castle

Amusement Services Australia multiplay shark jumping castle is the most popular in our range. It is designed in bright, fun colors with neat animations and a cool shark theme. This makes for a great eye-catcher!

Furthermore, the multiplay bouncer is very comprehensive and provides hours of fun.

In the jump area there are many obstacles where children can bounce, jump around and play. There is also a slide incorporated in the inflatable to complete the total look.

The cool shark situated on the front is a real eye-catcher. In addition, the multiplay inflatables are suitable for every child.

## Technical Specifications

**Dimensions:** 5.4m x 5m x 3.0m (L x W x H)

**Packed Size:** 1m x 1.2m

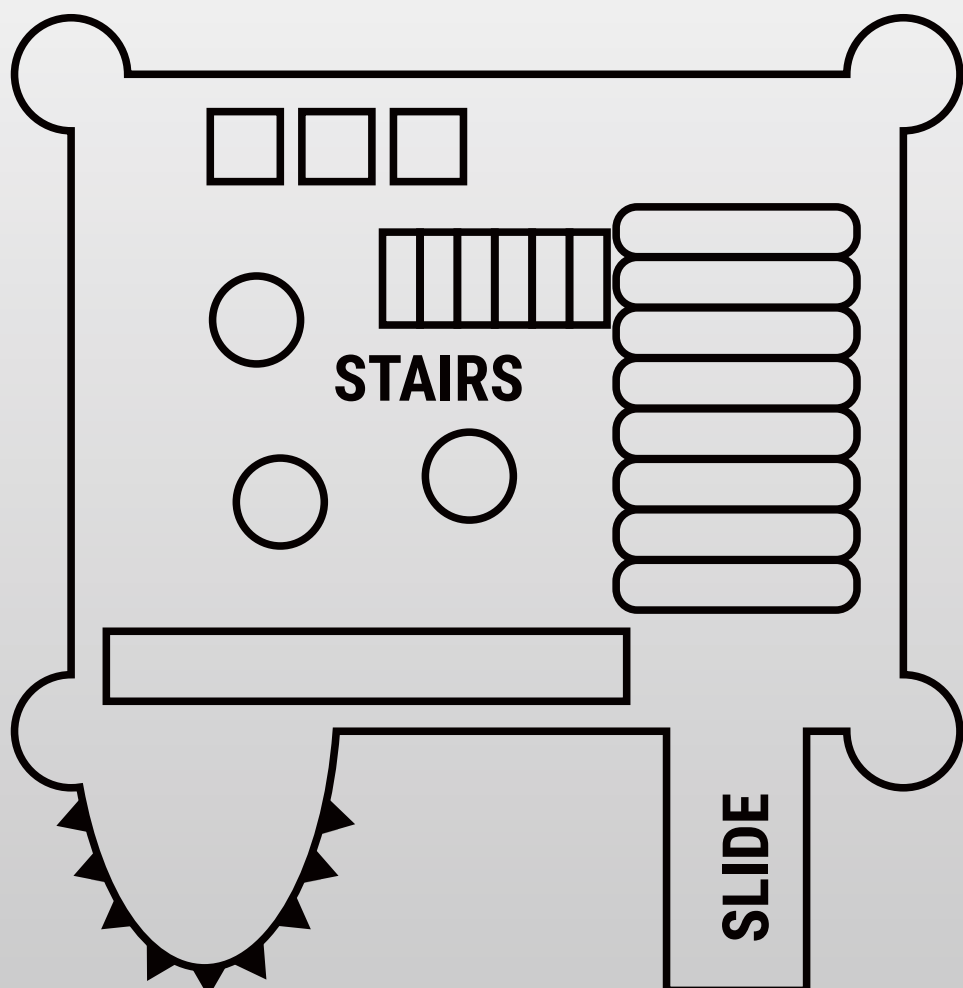

**Weight:** 150 kg

**Blower:** 15 kg

**Set up Time:** 10 minutes

**Install, Pack Up:** 1-2 persons

**Capacity:** 12 persons

# Cartoon Network

## Pick a Pop

ASA's **Cartoon Network Pick a Pop** game is a new spin on our old favourite "Catch a Character" but instead of hooking pop characters floating in a pool, our Cartoon Network pop characters are placed on top of prizes that sit on a spinning table.

Once **you Catch 3 Characters** with your hook the number underneath your character (which equals either 6,7,8,9,10, 20, 30, 50 or 100) is combined with your other catch numbers to denote the prize you win!

- **Catch 3 for \$10**
- **Catch 7 for \$20**

## Number System

- 000-045 points** = Wins a small Consolation prize
- 046-065 points** = Wins a Size 1 plush toy
- 066-085 points** = Wins a Size 3 plush toy
- 086-105 points** = Wins a Size 5 plush toy
- 106-125 points** = Wins a Size 6 plush toy

In ASA's Cartoon Network Pick a Pop game every player **wins a licensed prize** with all game versions complimented by music and tapes that explain the game rules.

Cartoon Network Plush Prizes from Benson's

Sonic, Super Mario, Pacman & Halo Pop Characters (like the ones above) are placed on top of boxed plush prizes which sit on top of a rotating table inside a 5m x 5m centre tent.

Each Player uses a hook to catch the pop character of their choice as the table rotates slowly past!

**Rotating Table** ➡  
inside our 5m x 5m centre tent

# Shopkin's Catch a Character

ASA's Shopkins Catch a Character game is a family favourite where players use a hook to "Catch a Character" floating in a square pool located underneath a 5m x 5m centre tent.

Once **you Catch 3 Characters** with your hook the number underneath your character (which ranges between 5 and 10) is combined with your other catch numbers to denote the prize you win!

For a \$5 game play you can score anywhere from 15 to 30 points **AND if you want, you can opt to play again** and add those scores together to win bigger prizes!

In ASA's Shopkin's Catch a Character game every player **wins a licensed prize** with all game versions complimented by music and tapes that explain the game rules.

We also have **5 characters floating in the tank** at all times that have "**Pick Of The Prizes**" written on them. Hook one of these and choose any prize!

## Number System

001-020 points = a Novelty Prize

021-040 points = a Tiny Inflatable Prize

041-060 points = a Small Plush Size 20cm

061-080 points = a Medium Plush Size 30cm

081-100 points = a Large Plush Size 40cm

101-120 points = a Giant Plush Size 60cm

**VOTED BEST GAME** in SHOW Adelaide 2018!

# Adventure Time Ring a Bottle

ASA's Adventure Time Ring a Bottle game is fun for the whole family.

The way the game works is simple. **You purchase rings which** are thrown at a **square grid of bottles**. If you can lodge the ring on the neck of a bottle you win a prize.

Where the bottle is placed in the grid, ie along the out edge or closer to the centre **determines the prize you win**.

**The bottles around** the outside represent novelty prizes, further inside the grid the bottles represent tiny, small, medium, large and finally in the centre of the the grid, giant prizes!

The four roof quarters of this centre tent are covered in **Adventure Time artwork** and the prizes are only licensed Adventure Time merchandise.

**Every player will win a licensed prize** for a \$5 play with all game versions complimented by music and tapes that explain the game rules.

## Game Play

**\$5 for 5 Rings  
or \$10 for a Bucket of Rings**

**Benson's Trading Licensed Plush Prizes**

# Laughing Clowns

The Laughing Clowns are one of Australia’s most popular sideshow games where players have fun and receive a prize each time!

Our version of this game has been tailored to include a children’s platform for parents with small children and toddlers so people of all ages can enjoy the game experience.

The Laughing Clown game is 8m wide, 3 meters deep and 5 meters high and you only win licensed prizes from Benson’s Trading Company playing this game.

Just place 5 balls into the clowns mouth and attempt to line up any of the prize winning scores displayed on the backdrop. It’s simple to play and easy to win. All you need to do is add up your score to see which prize you win.

## Prizes

# Safety Officer

**Russell Watkins** is the nominated Safety Officer for any of our events & has qualifications in OHS along with 20 years experience in the set up of amusement devices on a national level. **His duties encompass:**

- Ensuring that the site is safe from hazards,
- Correctly storing hazardous materials,
- Enforcing ASA's **No Alcohol** policy on site,
- Testing & Tagging all electrical cables,
- The erecting and checking of all safety barriers,
- Conducting emergency procedure briefings,
- Maintaining all fire equipment, and
- Ensuring all ride safety signs are displayed.

**Russell Watkins** holds a current high risk work licence from **Safework VIC** that includes: Working at Heights, Crane Operator, Construction White Card, Forklift License & MC Truck License.

# First Aid

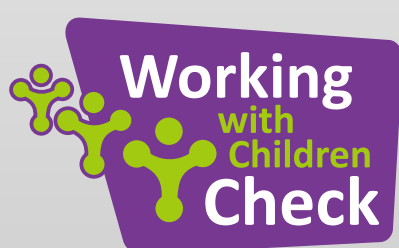

**Amanda Watkins** (a qualified senior first aid provider) is our **nominated First Aid provider** on site. She also conducts refresher courses for our permanent staff and ensures that all our casual employees have first aid training.

# Accreditations

ASA is insured by **CoverSure** for **20,000,000++**, Work Safe Victoria compliant, Test and Tag compliant and all permanent staff members have Working with Children clearance.

## Uniforms & Presentation

**ASA recognizes** the importance our team member's contribute to the success of an event.

**We are dedicated to providing** thorough training to all team members to arm them with the knowledge & confidence they need to handle any situation in the execution of your role as a carnival ride or games attendant.

They are on the **front line of ASA operations** and as such their actions reflect directly on our reputation.

### **Standard ASA Uniform**

Blue Polo Neck Shirt with ASA Logo  
 Baseball Cap with ASA Logo  
 Black or Dark Navy Blue Trousers

**It is vital to us that** they maintain a professional, positive attitude towards the position they have been selected for.

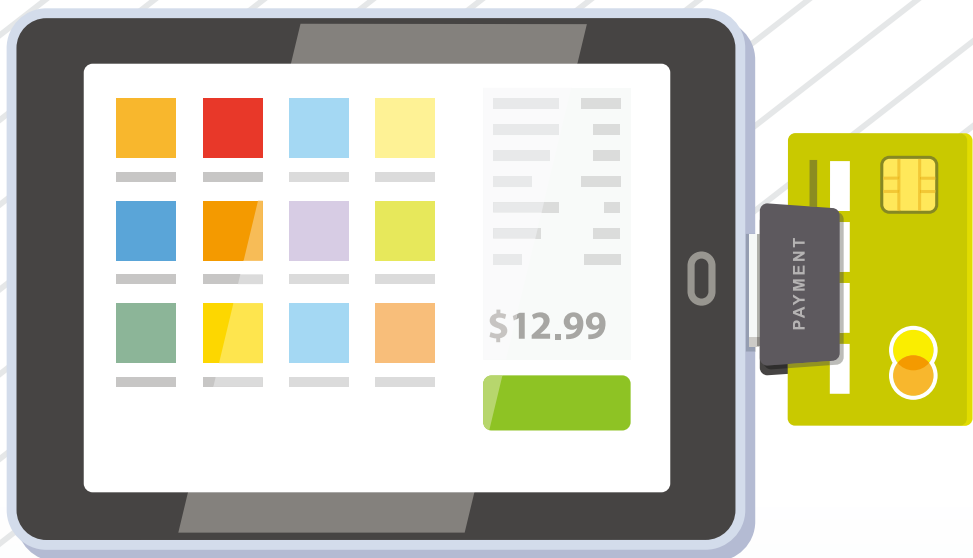

A friendly outgoing personality towards customers is important as **ASA strives to provide a family friendly** experience every time our patrons board one of our rides or participate in one of our games.

# Revenue Tracking

Any modern company needs to track it's income, especially if it comes from multiple games, rides and activities. At ASA we use VEND which is a **seemless cloud based POS** system that allows us to make sales anytime, anywhere.

**All Ride and Game sales** will be recorded through our VEND Point of Sale System. We will be able to provide **comprehensive statistics** on income, prizes, time & plays from our game stations. Any Query is possible on VEND!

## Contact Us

You can contact **ASA Monday to Friday** between 9am and 5pm on the below given mobile numbers or you can send us an email through our contact form located on our website.
